## Project Meeting in Bircza, Poland 19th – 23rd March 2017

### Tasks

1. *Presentation about the analysis of the questionnaire (Poland: 2ppts)*  
>>> will be uploaded on e-twinning

2. *Agreement on the practical activities*

All activities must not be really detailed (due to different situations in schools and countries) but give the idea of how to realise them. If an activity is tried out it can be discussed and analysed in the next meeting and should be documented.

Every country will upload as the following plan shows:

April 2017	Greek
May	Iceland
June	Spain
July	Germany
August	Finland
September	Poland
October	Greek
November	Iceland
December	Spain
January 2018	Germany
February	Finland
March	Poland

So all in all there are 3 activities for each country.  
The activities will be uploaded on the BLOG.

The Finish team will send the information needed to upload on the blog to all the countries.

Everybody can also discuss and comment on the blog.

### *3. Focus of the project (aimed improvements)*

>>> Mobbing Analysis of the questionnaire

Results:

Mostly verbal aggression, one person starts and then the others start >> causes panic and anxiety, often caused in school during the breaks frequently because of the appearance.

Propoals for improvement:

>>> finding activities for the breaks and recreation time (recess activities)

>>> breaking the common patterns ( one starts,...)

>>> training communication and anti-aggression skills

>>> improving the awareness of being tolerant

### *4. Dates for the next meetings*

Finland 12 – 17 September 2017

Germany 9 – 14 November 2017

### *5. Using Social Media*

You tube, Facebook or any other social media will not be used to publish any results, videos etc. due to problems of private data

>>>

every country checks first, if there would be a problem due to national rules and thinks about a common way to upload videos and then the topic will be discussed again .

**Deadline: 23rd April >>> mail to Iceland to confirm**

(Vimeo is the preferred cloud tool used for uploading videos).

## *6. Documentation of the activities*

Every partner will create a kind of documentary to inform and share about the uploaded activities which they have tried with their pupils.
